DETAILED ACTION

Allowable Subject Matter

1. Claims 1-62 are allowed.

The following is an examiner's statement of reasons for allowance: The allowability of the claims resides, at least in part, that the closest prior art of record **Kung, et al. (US 6,636,910)** does not disclose or suggest, alone or in combination the step of:

With respect to independent claims 1, 11, 21 **changing the processor's frequency and then the processor's voltage if the performance state of the processor is going to be the lower performance state**, in combination with the other elements and features of the claimed invention.

Regarding independent claims 33, 43, 53 **changing the processor's voltage and then the processor's frequency if the performance state of the processor is going to be the higher performance state**, in combination with the other elements and features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
